## PROFESSIONAL SUMMARY

Cyber Forensics graduate currently pursuing an MSc in Cyber Security & Emerging threats at Middlesex University London. Possess academic and practical knowledge in cybersecurity, cybercrime investigation, network security, vulnerability assessment, and ethical hacking principles. Gained hands-on exposure through a cyber crime Police station internship, cybersecurity training programmes and technical projects involving secure systems development and machine learning based threat detection. Strong analytical, problem solving and communication skills with a passion for cybersecurity, emerging threats. Seeking internship, placement or graduate opportunities to further develop technical expertise and contribute to organizational security objectives.

---

## EDUCATION

### 1. MSc Cyber Security & Emerging Threats (Ongoing)

Middlesex University, London -2025-2026

### 2. BSc Cyber Forensics

Sree Narayana Guru college arts & science, Kerala, India, Graduated: 2025

---

## TECHNICAL SKILLS

- **Cybersecurity:** Cybercrime Investigation, Vulnerability Assessment, Network Security, Ethical Hacking Fundamentals.
  - **Platforms & Tools:** Linux, Windows, TryHackMe (20+ completed rooms), Web Security Tools, Vulnerability Assessment Tools
  - **Professional Skills:** Analytical Thinking, Problem Solving, Technical Documentation, Team Collaboration, Communication Skills, Time Management.
- 

## PROJECT

### Detect Defend – Machine Learning Network Attack Detection and Defense System (MSc Project)

- Contributed to the development of a machine learning-based network intrusion detection and defense system using XGBoost.
  - Worked with the UNSW-NB15 dataset to classify malicious and legitimate network traffic.
- 

## INTERNSHIP

### Cyber Crime Police Station- cyber forensic Intern, Kerala, India

- Assisted in cybercrime investigations and digital evidence handling
  - Gained practical exposure to cyber forensic procedures and incident investigation
  - Observed cybersecurity investigation techniques and reporting processes.
-

## **CERTIFICATIONS**

- Offenso Cyber Security Analyst (OCSA) & Penetration Testing Certification (Ongoing)
  - Red Team Academy – Cyber Security & Ethical Hacking Training
  - IBM SkillsBuild Cybersecurity courses and Basic AI course
  - Alison cybersecurity & Technology courses
- 

## **ACHIEVEMENTS**

- Presented at a National Seminar on Artificial Intelligence in Health Care
- Participated in cybersecurity workshops , webinars, and hands-on security labs
